Essays:

Portland State and the University Honors Program seek students with a diversity of interests and perspectives who possess the capacity and motivation to excel. Essays are an important part of your Honors application and should represent your polished writing. Answer each question succinctly, but with enough detail for the selection committee to get a better sense of your competencies (250 words per question). Both essay questions must be answered.

Essay question 1: What was your most important learning experience and why?

Essay question 2: Today, for the first time in history, half of the world's population live in cities. What are the implications of urbanization for the environment, social policy or culture?

If there are additional circumstances or experiences you feel might provide insight into your potential, please explain in your own words in a single page or less.
