What students have to say...

- I have only encountered faculty of the highest caliber at PSU, & Dr. Dujon is among the best. She stands out as an amazing sociologist and educator among her distinguished colleagues, and is the PSU Sociology department's first female board member.
- She is AWESOME!! She is funny, charismatic, and extremely intelligent. Take one of her classes you will be captivated by her intellect and enjoyable personality.
- Veronica Dujon will grab your attention, lay out all aspects of a topic, and then expand the vision, explaining with such crystal clarity that you can't help but enjoy the topic and the ride. A great teacher and a great person.
- This woman is AMAZING!!!!!!!!!!!! I have never loved a professor so much. She so intelligent and captivating. I had two classes with her back to back so I sat in her classes for four hours a day and I was never bored. Take her if you can, you will be impressed.
- Veronica Dujon is inspiring; her courses have actually changed my worldview.
