## Teachers Development Group

The Department of Mathematics & Statistics and Teachers Development Group have partnered around our common vision for the improvement of mathematics education for K-20 Oregon students for over a decade. The pinnacle of our collaborations to date is the Oregon Mathematics Leadership Institute (OMLI), a project funded by the National Science Foundation and the Oregon Department of Education. OMLI directly involved 200 K-12 mathematics teachers, 100 K-12 administrators, and impacted an estimated 50,000 K-12 students.
