

SAMPLE INTERNSHIP DESCRIPTION – NOT CURRENTLY OPEN – FOR INFORMATION ONLY

Community Partnership Internship Free Geek

Interested in learning about and working with a variety of businesses and non-profits in the area and telling them about Free Geek? Our Community Partnerships Internship is a great short-term, special project. For more information and information about how to apply, please visit:
<http://www.freegeek.org/internships/descriptions#community>.

Free Geek is a Portland-based non-profit that takes in donated computers, fixes them up, and gives them to volunteers. We also responsibly recycle hardware that we can't use. We've been going strong since 2000. While our interns may earn free computers for themselves, their main function is to support shorter-term volunteers and staff by teaching, helping out, and having a good time.

This is a volunteer position, and while we can't offer any monetary compensation, you'll gain valuable experience for your resume and get that warm, fuzzy feeling that comes with helping out a community-based organization.

We'd like someone with teaching experience for this internship.
