

## SAMPLE INTERNSHIP DESCRIPTION – NOT CURRENTLY OPEN – FOR INFORMATION ONLY

### Recycling Internship Free Geek

Moving big stuff. You love it. You also like people and teaching them how to move big stuff and disassemble little stuff. You like warehouses. You'll want to look into our Recycling Internship. For more information and information on how to apply, please visit: <http://www.freegeek.org/internships/descriptions#recycling>.

Free Geek is a Portland-based non-profit that takes in donated computers, fixes them up, and gives them to volunteers. We also responsibly recycle hardware that we can't use. We've been going strong since 2000. While our interns may earn free computers for themselves, their main function is to support shorter-term volunteers and staff by teaching, helping out, and having a good time.

This is a volunteer position, and while we can't offer any monetary compensation, you'll gain valuable experience for your resume and get that warm, fuzzy feeling that comes with helping out a community-based organization. We'd like someone with teaching experience for this internship.

To learn about our other internships and let us know that you're interested, visit "<http://freegeek.org/internships>"
