

Introduction to Collaborative Governance Training
Training Agenda
June 22-26, 2009
PSU Business Accelerator

Overview of the Training:

This highly interactive training is designed to teach managers and employees of federal agencies the skills to effectively initiate and participate in collaboration to resolve complex public issues.

Participants in the training will develop the following key competencies:

- € Ability to identify key principles and stages of collaboration and distinguish this approach from other public involvement processes
- € Ability to analyze a situation and assess the potential for collaborative success
- € Able to design a collaborative process to build forum neutrality and facilitator impartiality
- € Ability to frame an issue for collaborative engagement
- € Utilize effective communication skills to build collaborative relationships
- € Ability to explore and identify stakeholder interests fundamental to collaborative problem solving
- € Able to apply fundamental group facilitation skills including organizing information and tools for group management
- € Ability to work toward consensus and tools to resolve impasse in decision making
