

Environmental Science and Resources Doctoral Student Annual Report

Instructions: This annual report is a retrospective on the accomplishments by an ESM doctoral student, covering the calendar year (January 1- December 31), and is due on January 15 (following the calendar year) each year (note that the first year's report will typically just cover the fall term). It is the responsibility of the doctoral student to fill out this report on an annual basis. It will be reviewed and approved by the student's advisor, and placed in the student's file.

Name:

Date:

Period covered:

Advisor:

Advisor approval _____
Signature

Date

Identify (in 50 words or less) your research area:

Give status of comprehensive exams:

List courses taken (includes all credits; for each course, list academic term, course number, course name, grade, credit hours, instructor):

Give a list of required courses yet needed to complete coursework:

List sources of support (include TAs, RAs, grants, outside employment; for internal sources, include assistantship or grant amounts and periods of coverage):

Give status of the doctoral research proposal:

List presentations of doctoral research work (include all presentations ranging from internal dept talks to poster or oral presentations at international scientific conferences; give talk title, date, meeting name, and location for each):

List publications (include all publications and manuscripts in review; provide full citation information):

Provide a 200-300 word abstract for your doctoral research. This abstract may either take the form of a proposed study or a partially completed project.
