

Question for Provost

Background: Phase IV of the UNST Staffing initiative had a curricular focus on the Senior Capstone component of UNST. Four shared positions were allocated. All four positions went to professional programs. CUPA received 2 positions. SBA also received two and both for an area called “Strategic Management.”

Question: Does this allocation decision entail that the interdisciplinary goals of UNST and the (associated) goal of inclusiveness of capstones, their access to students “from a variety of majors and backgrounds” (UNST Capstone website), are being revoked?
