#### PORTLAND STATE UNIVERSITY ANNUAL HONOR ROLL OF DONORS

Your contributions, totaling nearly \$21.4 million from all sources in 2007-2008, help to transform Portland State into a nationally acclaimed urban research university with a profound impact on the way we live, work, and play—here at home, and beyond.

Private philanthropy makes it possible for Portland State to:

- Strengthen PSU's *civic leadership* in advancing the metropolitan region's economic, social, and cultural well-being. Increased investment in research and partnerships throughout the region will create new knowledge and generate groundbreaking ways to apply it to advance industry, improve the quality of our lives, and sustain our planet's resources.
- Expand *educational opportunity and student success* by extensive collaboration with the K-12 system and community colleges, and by keeping costs to students affordable.
- Focus on areas, such as sustainability, where *Portland and PSU exemplify global excellence* and provide leadership that fosters the *diversity of the university and our community*.
- *Maximize resources* to enable the University to reach—and surpass—all of these goals.

Oregon's leading urban research university helps people throughout this region create and share vital knowledge, grow flourishing industries, and make life better for themselves and others. With partnership like yours we're providing new opportunities for individuals and communities to achieve their aspirations. Thank you for your important support!

*Portland State University and the PSU Foundation work in partnership to advance philanthropy in support of academic, research, and community programs that benefit our region.*
