## **Canada and the American Revolution with Professor Emeritus Charles White**

**PSU Canadian Studies welcomes PSU Professor Emeritus of History, Charles White, as he presents his lecture, “Canada and the American Revolution.”**

**The American Revolution had an impact in Canada equal, perhaps even greater, to what it had on the thirteen rebelling colonies. Streams of refugees entered Canada, Indians opposed to American aggression took refuge in Canada, escaped slaves were given a home in Canada, the American invasion of Canada affected Canadian outlook, and the Treaty settlement altered Canadian boundaries. All in all, the area of Canada was transformed. Canada was different, culturally and politically, after the American Revolutionary War.**
