

The **Center for Academic Excellence** is pleased to host the Carnegie Conversation Series at PSU.

These conversations focus on:

- *Strategies for the improvement of classroom learning*
 - *Scholarship of teaching and learning*
- *Key issues that affect the higher education community*

With Professor Weimer we will consider

Professional Literature that Makes a Difference

and the following questions:

- *How do we establish norms expecting growth and development of faculty as teachers?*
- *What makes work on teaching and learning by practitioners “scholarly?”*
- *How is pedagogical scholarship alike and different from discipline-based research?*
- *Should they both be judged using the same standards?*

Please join us for our first
Carnegie Conversation
of the 2008-2009 academic year!

Maryellen Weimer

editor of

**Wednesday, September 24, 2008
3:00 pm ~ PSU Hoffman Hall**
