

MASTERS PROJECT SIGN-UP SHEET

(This form must be submitted by the end of the 2nd week of the term)

Program Recommendations:

1) It is required that students who sign up for Masters Project have already taken Special Education 590 (Applied Behavioral Research in Special Education), or should be taking Special Education 590 concurrently with the first term of the project.

2) It is our general recommendation that students should complete their licensure program requirements including student teaching before starting a Special Project done with a group of students.

a) It is our recommendation that students who wish to start a project prior to completing their licensure program apply to do an individual masters project rather than a group project. Individual projects must be done in collaboration with a faculty advisor. The proposal form can be found in the handout "Masters' Culminating Policies."

b) If you wish to request permission to start a Masters Project (individual or group project) without first completing your licensure program you will need to obtain the approval of the Project Advisor and your Program Advisor.
