PROFESSIONAL ACTIVITIES AND COMMUNITY ACTIVITIES

Comprehensive audiological assessment and diagnostics for community based Portland State University Audiology Clinic.

Developed partnership with the Early Hearing Detection and Intervention (EHDI) program to provide newborn hearing screenings

Developed a partnership with several area schools to provide hearing screenings for school-aged children.

Current member of the Early Hearing Detection and Intervention (EHDI) Advisory Board. The task of the Advisory Board is to coordinate with local and state agencies in advising on and implementing EHDI grants projects.

Currently working under Early Hearing Detection and Intervention (EHDI) grant to expand infant hearing screening to out hospital birth population. Coordinating with community sites to offer free infant screenings, training individuals in the process of hearing screenings and reporting to state EHDI program.

TEACHING EXPERIENCE

SPHR 4/570 Audiometric Practicum: practical training in basic pure-tone and speech audiometry. Includes audiometric screening of children and adults.

SPHR 4/589 Aural Rehabilitation: theoretical course covering the physical, psychosocial effects and remediation of hearing loss. Course covers pediatric to elderly populations.

Hearing Conservation in Noise Course: Instructor for course designed to train individuals to be Occupational Hearing Conservationists (OHCs). Topics covered are anatomy and physiology of the ear, hearing disorders, audiometric test procedures, and audiometric practicum.

SPHR 365 Survey of Speech and Hearing Sciences: Guest lecture on anatomy & physiology of the ear, diagnostic testing, and aural rehabilitation.

SPED 4/582 Specialized Techniques: Early Intervention/Early Childhood Special Education: Lecture on anatomy & physiology of the ear, diagnostic testing, aural rehabilitation and communication strategies to use in an educational setting with children who have hearing loss.
